Still Deciding on a Major?

At UM, being undecided or undeclared is a time to explore and investigate possibilities. With 180 undergraduate programs in nine schools and colleges, it might take a semester or four to pick a major, or two.

To ease this investigation and to keep students on track toward graduation, students who enter as undeclared begin their academic careers in the College of Arts & Sciences. The focus on a well-rounded liberal arts education in Arts & Sciences and guidance from the Center for Freshman Advising ensures that our students take classes that satisfy their academic curiosity while fulfilling requirements toward a degree.

For more information on freshman advising:
www.as.miami.edu/advising

For help selecting a major:
