i>clicker Course Selection Process

If you will be using i>clickers in your classes, you should indicate that through the MyUM system, so that your room will be ready with a base unit. The following steps should be completed a week before classes begin, or at your earliest convenience.

1. Log into MyUM and go to the Faculty Tab.

2. Select the i>clicker link in the bottom-right corner of the page.

3. Select the “Yes” button for those courses that will be using the i>clicker.

4. Click the “Update” button to submit the information.
